

ABUL BASHAR

FULL STACK DEVELOPER

+8801833487526 | bashar35790@gmail.com | Dhaka, Bangladesh

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in React.js, Next.js, and Node.js, dedicated to building scalable, responsive, and user-focused web applications. Seeking a Full Stack Developer role where I can apply my technical skills to deliver high-performance products, collaborate with a talented team, and grow as a developer.

PROFESSIONAL EXPERIENCE

Softvance Agency (Frontend Developer)

Feb 2025 - Jul 2026

Responsibility:

- Developed responsive, user-friendly web interfaces using modern frontend technologies.
- Collaborated with senior developers and team members to build and deliver high-quality web solutions.
- Debugged and resolved UI issues while maintaining clean, scalable, and maintainable code.

SKILLS

Frontend: HTML5 | CSS | JavaScript | Sass | Tailwind CSS | React.js | NestJS | TypeScript | Redux Toolkit | Hero UI

Backend: Node.js | Express.js | MongoDB | PostgreSQL | REST API | NestJS | JWT Authentication | Prisma

Tools: Git & GitHub | Better Auth | VS Code | Claude Code | Chrome DevTools

Interpersonal Skills: Communication | Problem Solving | Team Collaboration | Time Management

PROJECTS

Estatefy - Full-Stack Real Estate Rental Platform

[Live Demo](#) | [Client Repo](#) | [Server Repo](#)

A modern, responsive real estate rental platform built with Next.js and React. Estatefy allows users to browse, book, and manage rental properties with an intuitive interface and seamless user experience.

Tech Stack: Next.js, TypeScript, React, Express.js, MongoDB, Stripe, Tailwind CSS

- Built a full-stack property rental platform using Next.js, React, and Express.js with MongoDB
- Implemented secure authentication, property booking, and Stripe payment integration
- Developed role-based dashboards (Tenant, Owner, Admin) with reviews and favorites management

SportNest - Sports Booking Platform

[Live Demo](#) | [Client Repo](#) | [Server Repo](#)

SportNest is a full-stack sports facility booking platform built with Next.js. It enables users to browse, book, and manage sports facilities through a modern, responsive interface

Tech Stack: Next.js, TypeScript, React, Express.js, MongoDB, Tailwind CSS

- Built a responsive sports facility booking platform using Next.js, TypeScript, and Tailwind CSS
- Implemented authentication, facility management, booking, and protected dashboards
- Integrated REST APIs and optimized UX with responsive design and dark mode support

Weather App - Premium Weather Dashboard

[Live Demo](#) | [Client Repo](#)

A premium, fully responsive weather dashboard built with Next.js, featuring real-time conditions, hourly and 5-day forecasts, and a glassmorphic UI with dark mode support.

Tech Stack: Next.js 16, TypeScript, Tailwind CSS v4, TanStack React Query, Jotai, Axios, OpenWeatherMap API

- Built a full-stack weather app with city search, geolocation, and secure server-side API integration
- Implemented hourly and 5-day forecasts with accurate timezone-based day/night icons
- Designed a glassmorphic UI with dark mode and a °C/°F toggle

EDUCATION

ZNRF University of Management Science (ZUMS)

Jun 2024 - Jul 2028

Bachelor of Science in Computer Science & Engineering (CSE)
